WHAT MAKES COLLECTIV ACADEMY STAND OUT

COLLECTIV ACADEMY was founded on the belief that students deserve more than cookie-cutter beauty school training.

HERE'S WHAT SETS US APART:

- **Industry-Focused Education:** We keep our curriculum aligned with current trends, techniques, and business practices so you can graduate ready to work in today's beauty industry.
- **Creative Freedom:** You can learn foundational skills, but also how to develop your own personal style and artistry.
- **Supportive Community:** Our educators, mentors, and classmates create an environment where collaboration and growth come first.
- **Professional Development:** Beyond technical skills, you can gain business knowledge, client communication skills, and confidence to succeed in any setting.
- **Connections That Matter:** With industry ties and alumni networks, you can be part of a community that supports your career long after graduation.

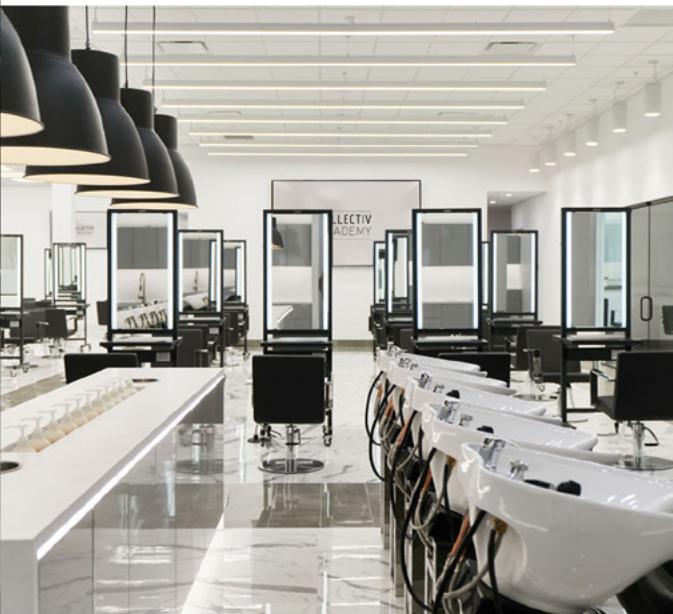

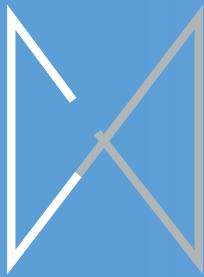

WHY COLLECTIV ACADEMY IS DIFFERENT

Choosing a BEAUTY SCHOOL is about more than learning how to cut hair or apply skincare—it's about preparing for your future.

HERE'S WHY STUDENTS CHOOSE COLLECTIV ACADEMY:

- **Hands-On Learning:** Real-world practice on clients, not just mannequins.
- **Creative Energy:** Our classrooms are buzzing with innovation, style, and inspiration.
- **Personalized Attention:** Smaller class sizes mean more one-on-one support from instructors.
- **Culture of Collaboration:** We're not just teaching beauty—we're building a community of professionals who lift each other up.
- **A Place to Belong:** Students often say they don't just find an education here—they find a family.

★★★★★

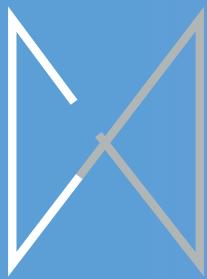

"Absolutely love this school. I went here thinking I was going to get just a classic cut, but the instructor Scott gave me a better vision of what would fit my face and my personality. He really really did a great job..."
